Important Information for Program Applicants

(This is for your information and need not be included in the program application)

All areas of KYBU Community Radio are volunteer-run and it requires a lot of work from a lot of people to operate.

DJs and programmers are an integral part of the station and are necessary to help with the ongoing operation of the station through volunteer tasks outside of programming. DJs and programmers will help share the tasks of running our community station.

As a KYBU Community Radio programmer, you will be expected to be a member of KYBU Community Radio, attend regular programmer meetings, assist with at least one Radio-sponsored event per year, and volunteer a minimum of four hours in each three-month period.

Volunteer tasks vary from general cleaning and maintenance of the studio and equipment to fundraising, administration, events, marketing, training DJs and outreach. We will do our best to align you with tasks that match your talents, abilities and interests and make it fun!

Thanks for applying!
